Colorful blend of micro daikon radish, micro ruby red radish, micro upland cress, micro red mustard and micro wasabi that combines several bold and robust flavors.

Garden Mediterranean Mix

GARDEN MEDITERRANEAN MIX

(90882) 8#
Colorful mix of living, whole head lettuces which may include the following varieties: red & green oak, red & green frisee and hurricane

• **It's Local** - Natures Market Garden Mediterranean Mix is grown in a 80,000 square foot state of the art greenhouse in the Great Lakes Region. This not only supports your local economies but ensures that you are serving the freshest lettuce available – *delivered to you hours after being harvested.*

• **It's Living** - Most greens are processed shortly after harvesting and then transported thousands of miles robbing the lettuce of flavor, nutrients and freshness. Natures Market Garden Mediterranean Mix is still living when you receive it, guaranteeing fresh, crisp greens with the longest shelf life available.

• **It Tastes Better!** - Natures Market Garden Mediterranean Mix includes several carefully selected varieties that are designed to provide the perfect combination of colors, flavors and textures.
