## Ready to Serve

All Country Kettle products are ready-to-serve,  
and require NO dilution or reconstitution.

### Heating Instructions

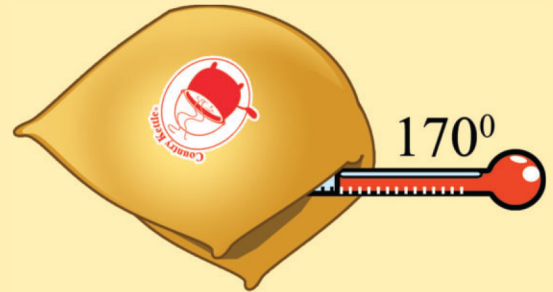

#### To Heat:

Place bag in boiling water.  
Do not overfill; bag must  
float freely to avoid  
damage to packaging.

#### Heating Times:

**Frozen:** 60-70 minutes  
**Thawed:** 15-20 minutes

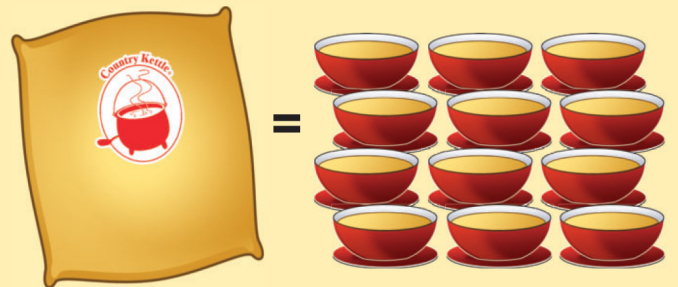

Product should be heated to  
an internal temperature of  
160-165°F.

#### Checking Temperature:

Remove bag from water and fold it, unopened, around a  
stemmed thermometer. DO NOT PUNCTURE THE BAG.

### Product Yield

#### Approximate Yields/Pouch

8 lb. pouch = 128 oz. (1 gallon)

### Shelf Life

Approximately five (5) days once completely thawed.
