

AUKRA FRESH

Norwegian Salmon Fillets

Raised in the deep open ocean currents of the Norwegian Sea, where Atlantic salmon live Naturally

Very Low Pen Density – there is more water than fish

Processing Plant on Premises – Our team of QC inspectors hand select each fish

No Stress Harvesting – The net pens are towed to plant – Fish swim inside

No Pesticides – Symbiotic Feeder Fish used to Control Parasites

All Natural – No Antibiotics – No Growth Hormones – In their Life Time

Organic Red Carotenoid-Rich Bacterium for color – No Synthetic Additives

Maritime Feed – Discards from fillet operations of MSC fish for Protein

“Super Green” recaptured CO2 used for Ice – Biodegradable Packaging

Custom “D” trim – unmatched in the industry
