

Raised in the deep ocean currents of the Norwegian Sea.

AUKRA FRESH
Norwegian Salmon Fillets

Very Low Pen Density

Processing Plant on Premises

Our team of QC inspectors
hand select each fish.

No-Stress Harvesting

Net pens are towed to plant and
the fish swim inside.

No Pesticides

Symbiotic feeder fish are used
to control parasites.

All Natural

No antibiotics or growth hormones
in their lifetime.

No Synthetic Additives

Maritime Feed

Discards from filet operations
of MSC fish for protein.

“Super Green”

Recaptured CO₂ used for ice.

Biodegradable Packaging
