USE THESE RULES IN CREATING YOUR SIGNATURE SALAD.

Keep the ingredients to a **minimum**. By using 5 ingredients or less, you should be able to keep your salad simple yet flavorful.

Use **contrasting** colors. Choose at least 2 very different colored ingredients to create a visually intriguing salad.

Combine different textures. Combining tender and crisp will add flavor and depth to your salad.

Pair sweet with salty. These two opposing flavors work well when paired together.

Under dress rather than drown. Many of the greens and ingredients that you will be using have their own bold flavors that only need to be enhanced, not smothered.
